Incotech has more than 15 years of experience in doing safe and smooth business in China. Incotech has a team of professional auditors, quality control inspectors, sourcing specialists, lawyers and business consultants.

All our services are catered for overseas importers or exporters worldwide. We are offering a ONE-STOP import and export business solution and aiming to create value for our clients worldwide. Our mission is to save you more and reduce the risks in doing business in China!

What We Do for Our Customers

- Company Verification and Investigation
- Professional Sourcing
- Quality Control
- Purchasing Agent or Buying Office

5 THINGS YOU NEED TO KNOW

- No matter how suppliers are good, there are always unexpected problems during production.
- Never buy products just because they are cheap- they are cheap for a reason.
- Be careful finding suppliers online- many good suppliers do not want to be on the regular platforms such as Alibaba, and many are not what they say they are.
- Always visit suppliers to verify their production capabilities, capacity and proper quality control processes.
- Make sure the other side understands your requirements!

Trust

- Having operated for nearly 15 years, we have earned our reputation as a leading provider of outsourced service
- We operate in a manner that de-risks our clients
- We do it right!

Global Mindset

- Aligned to evolving global standards
- Adept at multi-cultural implementations
- Speak the language of the customer

Quality is in our DNA

- Quality is intentional
- We invest in initiatives that drive quality whether or not it is visible to the client

People Strategy

- Dynamic people retention and sourcing strategy
- Continuously educate people on global best practices; as well as changing statutory and regulatory standards

INCOTECH

We Work with Different Labs

Supplier Selection

Factory Audit (FA) / Technical Audit (TA):

- Systematic analysis to assess QMS, capacity/ capability.
- Examination of processes & supplier control system.
- Honest appraisal based on the Audit outcomes.

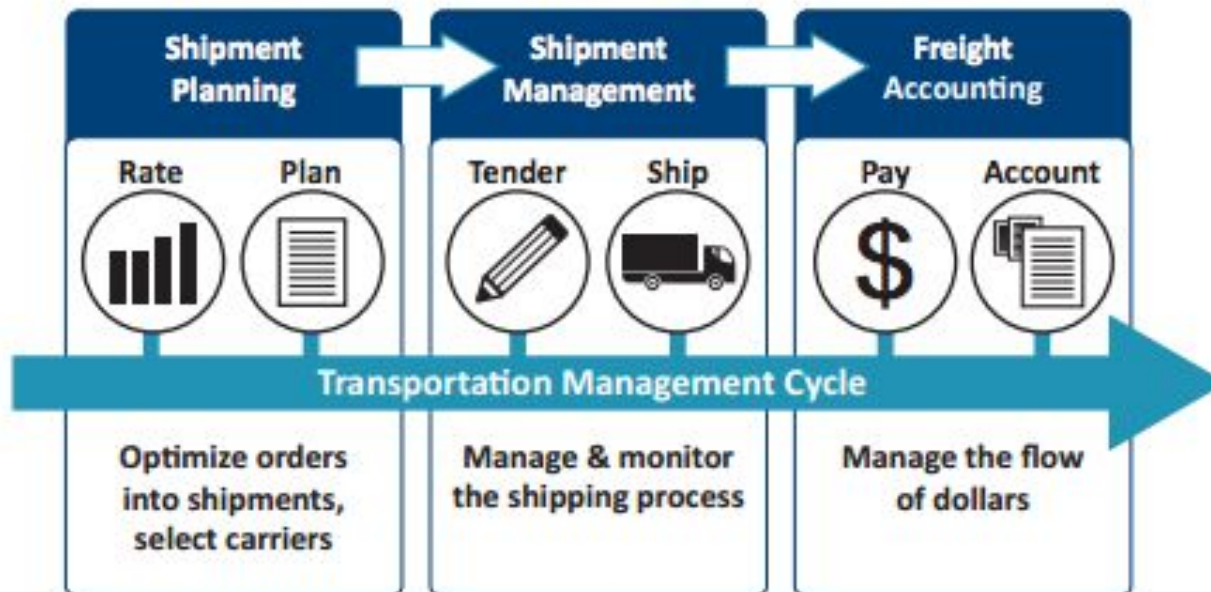

Important Aspects:

- To evaluate the capacity & capability.
- To verify their strength in Targeted product lines.
- To evaluate the existing quality management system.
- To ensure the existence of Target set up & status.
- To verify whether real manufacturer or trader.

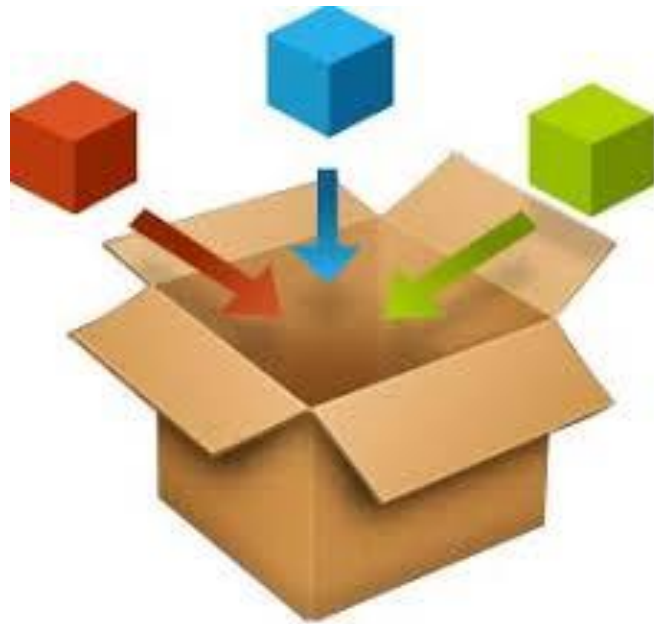

Benefits :

- Evaluate risks adapted quality control measures.
- Avoid selection of a technically non-competitive supplier.
- Get a snapshot of supplier practices, process systems.
- To implement corrective action plans wherever required.
- Establish mutual beneficial partnerships with suppliers.
